Subject: Train derailment, chemical spill

Not sure if either of you are aware of developing hazmat situation. Train derailment caused chemical spill in Mantua Creek, Paulsboro, Gloucester Co, NJ. Trenton Dispatch called to send our officers out, but I'm not sending anyone until the trained professionals have reported area to be safe. Individuals on scene (TV news coverage) aren't in hazmat suits.

Advise if you need any additional information.

Sean
